Full Stack Web Developer

Full Stack Web Developer with a passion for building web applications from mockup to rollout. Adept at working independently as well as collaborating with teams across multiple functions to break down concepts in layman terms. Bring experience obtained through previous work as a developer and recent schooling in Full Stack Development to build attractive, semantic, and efficient web applications.

Technical Skills

Languages: SQL, HTML/CSS, JavaScript, CSS3, HTML5, JSON

Database: MySQL (Sequelize), MongoDB (Mongoose)

Other: Node, Express, React, Heroku, Bootstrap, Git, Bash, JQuery, Microsoft Office Suite

Projects

Atlas Pet Website Rebuild damp-dusk-22863.herokuapp.com | github.com/NathanSzu/PetSupplyWebsite | 2020

- Designed and built a new customer facing website from the ground up utilizing CSS animations, React, and an Express server to handle form submission emails.
- Tools used: HTML5, CSS3, JavaScript, Node.JS, Express, Dotenv module, Nodemailer, React, Bootstrap

Blog for Developers safe-wildwood-99674.herokuapp.com | github.com/NathanSzu/BlogForDevelopers | 2020

- Worked with a partner in a remote development environment to build a blog site that allows new developers to create posts and share them with a community to help build better understanding together. This program is built without react, but with a focus on minimal page loads utilizing JavaScript DOM manipulation.
- Tools used: HTML5, CSS3, JavaScript, Node.JS, Express, Bootstrap, Passport, MySQL, Sequelize

Google Book Search stormy-sands-17663.herokuapp.com | github.com/NathanSzu/GoogleBookSearch | 2020

- Created a React app to make calls to the Google books API and return results based on search terms. Users can browse books, view them on google, and save them to a book list, utilizing an Express server connected to MongoDB, for future reference.
- Tools used: HTML5, CSS3, JavaScript, Node.JS, Express, MongoDB

Experience

Front End Developer & IT *Atlas Pet Supply* 11/1/2017 - Current

- Developed and maintained multiple static websites and an online store utilizing website editors where possible for rapid development and performing manual HTML & CSS alterations.
- Created an online training course for new staff members and regularly updated the program with new content.
- Managed all online accounts, social media profiles, and event schedules.

Education

University of Minnesota School of Continuing Studies Full stack flex certificate of completion. Web Development Program 06/01/2020 – 08/24/2020

A 12-week intensive program focused on gaining technical programming skills in HTML, CSS, JavaScript, SQL Databases (MySQL), NOSQL Databases (MongoDB), React, Node, and Express servers.

North Dakota State University Bachelor of Science in English with a minor in Management Communications
